Bienvenidos!

It is my pleasure to extend a warm welcome to everyone who will enjoy our parks, open space and trails, and also activities at our recreational facilities this summer.

We are fortunate to live in a community with a great cultural history and we celebrate our diversity in a unique and very spiritual setting.

I encourage you to look through our 2006 Summer Activity Guide to find fun and healthy alternatives for you, your family, friends and visitors.

From golf to ice skating; from yoga to water aerobics; from outdoor and indoor swimming to weightlifting; from recreational camps to walking trails; and so much more.

Thanks to the dedicated parks crews, recreation staff, and the Parks and Recreation Department who offer us diverse recreational opportunities throughout the summer months.

It is an honor to serve my community as your newly appointed Mayor and I look forward to a bright future for our community. My family and I look forward to seeing you in our parks, facilities, special events and programs this summer and for years to come.

Sincerely,

Mayor David Coss

Fees/Schedules/Class Descriptions

FEE: \$70 (*Includes six 30-minute lessons with 30 minutes of supervised practice once per week, rental skates, and USFS Registration Fee*). The first two weeks will start with a 30-minute lesson followed by a 30-minute supervised practice. The remaining classes will begin with a 15-minute practice, the 30-minute lesson, then another 15-minute practice. Both *Stroking/Interpretive* and *Moves in the Field/Footwork* are only 30 minute classes, are \$40 for the six week session and do not include a supervised practice. The levels are as follows:

Parent/Tot

This Program is designed to teach the parent how to help their child with the basic skills of skating. Group lessons will focus on sitting and standing up with skates on (off and on ice), stopping, forward and backward skating. This is a great opportunity for parents and tots to socialize with people of similar interests while spending quality time together. Class fee includes both the parent and the tot.

Snowplow Sam

This section of the Skate With U.S. Program was designed to help children ages 4 - 5 develop preliminary coordination and strength necessary to maneuver on skates. Some of the elements in this section are the same as those in the Basic Eights, but the degree to which the skater is expected to perform the elements is to a lesser extent. A few children in this age group may be prepared to begin at the Basic 1 level. Time in Snowplow Sam will allow preschool children to become comfortable on ice during these early years.

The Basic Eights 1-6

The Basic Eights are designed to introduce 6 - 14 year olds students to the fundamentals of ice-skating and to encourage continued participation in skating as an enjoyable lifetime sport. Some examples of the elements taught in the Basic Eights are gliding, swizzles, stroking, crossovers, stops, three-turns, mohawks, jumps, and spins.

Hockey 1-4

These classes have been designed to fulfill the basic needs of those interested in hockey skating. Some of the elements to be covered in this section are forward and backward crossovers, stroking, mohawks, hockey turns, and hockey stops. This program will prepare boys and girls with skating skills they need for the youth hockey leagues. All elements will be taught without a stick or puck as proper skating techniques are the focus of the classes.

Adult 1-4

The adult curriculum is designed for the beginner adult skater. It is designed to promote physical fitness, improve balance and coordination while teaching proper skating techniques. Divided into four levels, adult skaters will progress at an individual rate while being challenged and motivated.

Adult Freeskate

These classes are for adults who are beyond skating's basic skills and are interested in learning competitive skills like jumping, spinning and spiraling.

Moves in the Field/Footwork

This class will help develop all basic fundamental edges and turns, while emphasizing edge quality, extension, quickness and power. The footwork part of the class will use the skills learned from Moves in the Field to develop exciting and impressive sequences of turns, edges, swings, and toe pick spins while maintaining proper posture and body position.

Stroking/Interpretive

This class will teach efficiency of pushing and direction for maximum speed and control to music. Presentation and expression are also emphasized as are deep edges. Join this class for a good workout.

TRAILS

Santa Fe has a variety of trails and public paths that encourage outdoor recreation and promote fitness. Some trails link parks and other destinations, creating greenways through densely developed areas. Others, such as the Rail Trail, extend well into Santa Fe County through less developed landscape. So, put on your walking, running, or hiking shoes - or get out your bike or skates - and take advantage of the trails that Santa Fe has to offer.

KEEP SANTA FE BEAUTIFUL

2006 Summer/Fall Events

May 19, 2006 Keep Santa Fe Beautiful Golf Classic - This is a fundraiser for Keep Santa Fe Beautiful, Marty Sanchez Golf Course

September 7, 2006 Zozobra (litter free event) - This event is coordinated to make the night of Zozobra more enjoyable with less litter around the park's grounds. Attendees are provided with trash bags and asked to place their trash into the bags and not on the ground. Cleanup by city crews is made easier with everyone's cooperation. We are also looking for volunteers to help hand out trash bags. September 23, 2006 Fall Clean Up Day in Santa Fe Like our Spring Clean Up volunteers are encouraged to clean up their neighborhoods, city streets, parks, arroyos and school grounds. Afterward all of the volunteers are treated to a "thank you" picnic.

October 14, 2006 Keep Santa Fe Beautiful Wine Tasting Fundraiser and Silent Auction - Money raised at Keep Santa Fe Beautiful's fifth annual fundraiser is used for projects that educate school children and residents alike on the importance of litter prevention, beautification and the benefits of recycling.

November 10-12, 2006 Recycle Santa Fe Art Festival - The festival includes a recycled art market, exhibits, a fashion contest, music, food and children's activities all weekend long. The festival is designed to educate New Mexicans about waste reduction in a fun and creative venue and in an effort to stimulate local economic development and ultimately reduce the amount of waste disposed in the landfill. All activities during the three-day event are open to the public.

Curb Your Tree - Santa Fe Residents can recycle their Christmas Trees during this week and the City of Santa Fe picks them up and mulches them. Date TBA.

Arbor Day Events (month) - During the month of March Keep Santa Fe Beautiful plants trees w/ schools in our school grounds, parks and city facilities. Date TBA.

City of Santa Fe Easter Event (litter free event) Date TBA.

Great American Cleanup in Santa Fe - On this day volunteers young and old come out to help clean up our city streets, parks, arroyos and school grounds. Afterwards we have a picnic to thank our many hard working volunteers. Date TBA.

Amnesty Day at the Buckman Recycling and Transfer Station - On this day Santa Fe Residents are allowed to take up to 8 tires and 4 appliances per resident to the Caja Del Rio Landfill for free. Date TBA.

Household Hazardous Waste Drop-off Day - On this day Santa Fe County & City residents are able to take all of their household hazardous waste and dispose of it for free. These are items that cannot be disposed of in the landfill (paint, oil, household cleaners, garden pesticides, etc.). Date TBA.

PARKS & RECREATION

Suggested Woody Plants

We have developed a working list as a living document of plant materials that can reasonably be expected to grow acceptably in the Santa Fe area, given proper siting and care. Some of these plants have limited availability at this time, though nursery supplies are increasing. There are others that might grow equally well here, but they have been excluded at this time due to their even more limited availability.

Knowing that our current drought situation may be with us for awhile, this list will be reviewed and modified periodically as potentially useful plants and information are introduced or become more readily available.

The Suggested Woody Plant list is not intended to be used to limit plant selection, but to serve as a guide for those who want to know more about reasonable choices for this area. This list is available from three sources: The Parks and Recreation Department at 1142 Siler Road, the Santa Fe County Cooperative Extension Service at 3229 Rodeo Road or on line at santafetrees.com and santafenm.gov.

For those who wish to experiment with plants not on the list, we urge you to find out all you can about the plants' expected hardiness, resistance to disease and insects, cultural requirements and potential problems.

The Pine Bark Beetle Reducing the Impact

Recognizing that the Bark Beetle Outbreak is having a significant Impact on the greater Santa Fe area, the City Council has directed staff to develop a plan of action for dealing with this problem. A major component of this plan is to provide information to citizens in an effort to help reduce the impact of this infestation. According to forest health experts, the best way to avoid having trees attacked by bark beetle is to take preventative measures.

What Can You Do?

- 1. Thinning-** Reduce the competition for water, sunlight and nutrients among the trees. In most areas of town the Piñon tree stands are unnaturally dense, due to previous periods of above normal precipitation resulting in overcrowded growth. The State Forestry division and Cooperative Extension service can help you with specific advice regarding tree thinning. Many of the local Horticultural services can also provide valuable information.
- 2. Watering-** Watering trees at the drip line to a depth of two feet will promote tree health, pay particular attention to the months of May, June and October if we have had light snow fall or a lack of rain during the growing season. However, depending on the weather patterns watering may be needed at other times of the year.

PARKS & RECREATION

- 3. Remove Green Debris-** The beetles are attracted to the wood and limbs of fresh cut trees. This material could be chipped or stacked on site. We recommend covering the piles completely, with clear 6 mil plastic or removing the wood to the Caja del Rio landfill. The fee has been greatly reduced for hauling in clean green waste where it will be processed and completely recycled for us in regional erosion control projects.
- 4. Dead Trees-** When the tree is dried out and the bark is beginning to fall off it will not attract bark beetles. Leaving as many of these trees as you can provides habitat for wildlife and will return carbon and nutrients to the soil as they decompose. The logs and branches can also be utilized when constructing erosion control features.

Spraying

The City of Santa Fe does not promote spraying for bark beetle control. The bark beetle populations have increased to epidemic proportions because of extreme drought and unnaturally dense Pinon Pine stands. Spraying the trees will provide a measure of control for the beetle but you will still be left with a dense, weak stand of Pinon pine susceptible to attack by other organisms feeding on drought stressed trees. Remember, when you spray, you will be killing the many beneficial insects along with the beetle.

Should you make the decision to spray we recommend the following “good neighbor guidelines”:

- Research as much information as possible regarding the toxicology and use of the pesticide.
- The local nurseries can provide helpful information when reading the label. Make sure the label specifically registers the use of the chemical for bark beetle control. The label is the law and you are required to follow all directions accordingly. The internet provides extensive information not provided for on the label, citing effects of its use on the environment and toxicology studies.
- The person most at risk from pesticide applications is the applicator. Consider contracting with a professional, licensed applicator. Discuss the spray treatment thoroughly and ask for references.
- Consider spraying as few trees as possible, those great old “Grandfather” trees that would have the greatest impact on your property if they were to die.
- Visit with your neighbors before you spray. Give them the opportunity to close up their house, provide for their pets and express their concerns. You have provided them the opportunity to express their concerns and can take steps to minimize the effects of the spray application on the adjoining property.
